

Resolution Condemning Trump's and Musk's Attacks on Federal Employees/

Call to Boycott 2025 Tesla Products

Sponsored by Paul Friedman, Greg Delawie, and Steve Verdier

Approved March 3, 2025

Whereas, Elon Musk is an unelected private citizen who did not have to pass a background check or make public a financial disclosure statement and has been given broad powers;

Whereas, Musk, the richest man in the world, has, apparently with President Donald Trump's blessing, attacked the Federal workforce and has fired many Federal employees and threatened to fire tens of thousands more;

Whereas, the Department of Government Efficiency - DOGE - lacks authority from Congress for its actions;

Whereas, Congress has passed no legislation to reduce the budgets or number of employees of the agencies that DOGE has attacked;

Whereas, DOGE has illegally accessed Federal computer systems containing the private personal information of tens of millions of Americans, as well as computer systems at the Treasury Department controlling the multi-billion-dollar financial management of the Federal government;

Whereas, Musk's DOGE has attacked agencies that were investigating potential improprieties in businesses owned or controlled by Musk himself;

Whereas, the world's richest man has not sworn to act in the interests of everyday Americans;

Whereas, Musk has a history of anti-union activities;

Whereas, Musk has significant financial interests in China, the most significant adversary of the United States; and

Whereas, vesting almost dictatorial power in an unelected oligarch with clear conflicts of interest is a danger to the United States and its citizens;

Therefore, Be It Resolved that

1. The Alexandria Democratic Committee condemns the efforts by President Donald Trump and Elon Musk to attack the institutions of our government and federal employees who work to keep Americans safe and secure and demands that they cease those actions;
2. The Alexandria Democratic Committee expects our Congressional delegation to take every possible action to protect the federal government and its employees; and,
3. The Alexandria Democratic Committee calls for a boycott of 2025 Tesla products and supports protests at Tesla dealerships.
